NATURE. SCIENCE. WELLNESS.

BRAND IDENTITY — A WALKTHROUGH

# Rooted in nature. *Driven by science.*

---

Farmologic grows premium Cordyceps in a clean, controlled lab — and shows every step of it. Where others hide their process, we open it up. That honesty is the whole brand.

# Farmologic

---

**Farm** — real cultivation, grown by hand with care.

**Logic** — the science, the lab precision, the proof.

Two words for two promises: the goodness of nature, delivered with the rigour of science. Simple, honest, and easy to remember.

## THE LOGO

### Growth, built in.

An elegant serif **F** where the middle stroke becomes a living leaf, growing straight out of the letter. It says everything in one mark: something natural, growing from something structured and precise.

Deep forest green for trust and nature. A fresh olive leaf for life and energy.

## THE LOGO FAMILY

One logo, made to work everywhere — full lockup, the mark alone, and a stamp for packaging.
